

Assisted Reproductive Technology Benefit

Support for Your Family-Building Journey

Eligible members may receive up to **\$4,000** in reimbursement for qualified expenses related to Assisted Reproductive Technology. In addition, we offer up to \$4,000 to help cover costs associated with repeat single embryo transfers.

Eligibility

- » Must be enrolled in a PEHP medical plan with ART as a covered benefit. Check your Benefits Summary.
- » Age restrictions apply:
 - › Under age of 40 when own oocytes are used.
 - › Under age 46 if oocytes are sourced from another woman; however, the donor must be under 36.
- » Surrogates are not eligible.
- » Donor charges are not eligible; however, once an embryo is created, the qualifying ART procedure becomes eligible.

ART Qualifying Procedures

Limited to single embryo/gamete/zygote transfers:

- » In Vitro Fertilization (IVF)
May include intracytoplasmic sperm injection (ICSI), frozen embryo transfer (FET).
- » Gamete intrafallopian transfer (GIFT)
Criteria must be met.
- » Zygote intrafallopian transfer (ZIFT)/ Tubal embryo transfer (TET) / Pronuclear stage tubal embryo transfer (PROUST)
Criteria must be met.
- » Specialized sperm retrieval
(i.e., Microsurgical epididymal sperm aspiration (MESA) / Percutaneous Epididymal Sperm Aspiration (PESA) / Testicular sperm aspiration (TESA) / Testicular sperm extraction (TESE) / Testicular aspiration techniques (TEFNA) / Other.

Assisted Reproductive Technology Benefit

Reimbursement Process

- » Reimbursement is issued directly to the PEHP member upon submission of proof of payment to the clinic where services were provided.
- » The clinic is required to submit a receipt, along with the attached **Physician Verification Form**, confirming the member's payment, and a procedure note documenting the use of a single embryo transfer.
