Prenatal and Postpartum Program

What is WeeCare?
PEHP WeeCare is a pregnancy and postpartum program provided to support and educate PEHP members. WeeCare’s goal is to help expectant mothers have the healthiest and safest pregnancy possible.

How it Works
Enroll online at www.pehp.org/weecare at any time during your pregnancy. You may also enroll by phone (see below). PEHP WeeCare will conduct a short phone interview to finalize enrollment. Contact will continue by phone or email throughout pregnancy.

Why Participate?
Two of the most important steps an expectant mother can take toward ensuring her own good health and the health of her unborn child are obtaining early, continuous prenatal care and receiving appropriate education.

» Support: Have questions or concerns before, during, and after pregnancy? You can contact your friendly WeeCare Specialist by phone, email or message center.

» Resources: Electronic resources are available through the Online Pregnancy Resource Center at pehp.org. Individualized resources are sent by email to meet the specific need of each expectant and new mother.
