Smilelove
Clear Aligner Treatment

www.smilelove.com

PEHPplus members can now become fully confident in their smile without the hassle of wires and monthly visits to the dentist. Smilelove comes mailed right to your home, is virtually invisible on your teeth, less painful than traditional braces, and costs 75% less than the cost of braces or “Invisiline”.

35% OFF

By being a member with PEHPplus, you and any family members (older than 15) can purchase Smilelove at a 35% discount. This means you can love your smile for only \$1221 instead of the regular price of \$1895.

How It Works

- Using Smilelove’s impression kit, you make molds of your teeth at home.
- A licensed orthodontist reviews your medical history, photos and impressions and creates a preview of what your straight teeth will look like.
- Once you approve, the clear aligners will be mailed to you at home.
