Except for Oral Surgeons, PEHP does not contract with dentists for general medical services.

A dental agreement with PEHP only covers benefits and fees for dental codes and services.

We strongly encourage dentists not to provide general medical services to PEHP members without the member’s knowing consent to the procedure, price, and responsibility for payment.

Further, such claims should not be sent to PEHP but should be a matter between the dentist and the member.
**Appeals Process**

Avoid Delays With Accuracy

Beginning March 1, 2018, PEHP will be returning appeals to providers if the request is lacking specific information. Providers who disagree with how a claim was processed may dispute the claim. For a successful appeal, it must include:

1. An explanation of why they feel the denied charge is payable.
2. Have supporting documentation/guidelines to back up the appeal.

   a. Furthermore, provider must point to the section in the record where they feel it shows the criteria is met.

Appeals received without the above documentation and simply state: “please review, charge is payable with modifier”, or “records attached” etc., will be returned to the provider’s office, with a cover sheet that indicates the appeal can’t be reviewed until requested information is submitted.

Review of appeals takes time. To avoid unnecessary delays in the appeal, please make sure the appeal is submitted with the correct information. We encourage providers to visit www.pehp.org to become familiar with our appeals process.

**Data Review**

**Audit Concerns: Let Us Help You**

The Financial Assurance Department, along with our third-party auditing vendor (Verscend) continually audits claims to ensure accuracy of billing and correct coding. Verscend reviews the PEHP data with a team of Certified Dental Coders (CDC), RN’s and peer reviews as needed. Examples of common audit concerns are:

» Billing under the wrong provider (i.e. when services are not billed under the rendering provider).

» Billing for Major services (Crowns, Bridges, Dentures and Implants) on the prep date and not the seat date.

» Billing for services not rendered.

» Documentation not supporting the code(s) billed.

Accuracy in documentation is KEY! Remember:

» Submitted documentation should support the when, where, and why of services/procedures performed. This includes chart notes and/or progress notes, typed narrative.

» Submitted x-rays should include the patient name, date of birth, and identify the tooth/teeth.

» When billing for a crown be sure services are billed on the SEAT date and include a lab slip or proof of the use of a CERC machine as part of the documentation.

» Handwritten notes added to the dental claim form on line 36 “remarks” is not sufficient documentation to support the services/procedures performed, when submission is for a post pay audit review.

» If it’s not documented, it did not happen and is not payable.

We encourage you to understand the importance of accurate billing and documentation. This will not only help your office have successful billing, but will also help in an audit. We’re happy to help you through any questions, so contact your Provider Relations Representative for assistance.
**Tips to Avoid Delays**

If there are no requirements to submit X-rays or documentation, then submit your claims electronically, as they process faster than paper claims. However, if the claim contains codes from the list below, send a paper claim with the required records attached, as we do not accept electronic attachments.

By sending the required documentation on the initial claim submission, it’ll help to streamline payment processing.

Please make sure to have the patient’s identifying information (patient name and PEHP ID number or patient’s date of birth) on each page of the attached records to ensure the records can be attached to the correct patient in case the records get separated from the claim form.

Be sure to check the list often, as it is subject to change. Providers can find it at [www.pehp.org/providers/dental-services/authorization-coding-req](http://www.pehp.org/providers/dental-services/authorization-coding-req).

**Receiving Payments**

Did You Know?

Patients can be asked for their copayments, co-insurance, and deductibles at the time of service.
Prosthodontic Benefits

Be Familiar With Disclaimers

To continually assist our dental providers, we would like to remind you of the following disclaimers given for Prosthodontic services.

» Services to restore tooth structure are covered when damage is caused by decay or fracture. However, if the fractures are due to wear, the services will not be covered.

» If two different major services are received on the same tooth in the 5-year period, the payment for the second service will be reduced by the amount paid for the first, up to plan maximum.

We encourage your office to familiarize yourself with these disclaimers. If you have any questions regarding them, please contact PEHP’s Health Benefit Advisors at 801-366-7555.

Tools at Your Fingertips

Over the past year, PEHP has made several online tools available to assist our dental providers in accessing useful information. All of this is found through the secured provider portal at www.pehp.org.

1. **Dental Benefit Overview**: Providers can access a breakdown of benefits for members. This tool gives a general description of benefits for all categories of dental services. While we are not able to include every code in the breakdown, it does provide an overview of each plan’s benefit structure and many common dental services. After you’ve logged in, select “Check Eligibility” and follow the prompts. After locating your patient, scroll down to “Dental Plan.” Make note of the type of dental plan, as well as the Risk Pool. Select “See Dental Benefit Overview” and choose the correct plan. For codes that are not listed in the breakdowns, providers have access to the fee schedule.

2. **Fee Schedule Lookup**: Providers can search up to 10 codes at a time, or a range of codes. This tool allows providers to see if a code is allowed, the allowed amount, and if the code requires prior authorization.

3. **EDI Claim Acknowledgement**: Allows providers to confirm that an electronically submitted claim was received and accepted by PEHP, or see rejection codes if there was an issue with the submission.

4. **EFT Agreement**: Providers can enroll for electronic payments or change banking information.

5. **Documents/Newsletters**: This link allows providers to view our Master Policies. PEHP’s dental plans follow one of two Master Policies – either the “Dental Master Policy,” which covers all employer group plans, or the “Medicare Supplement Dental Master Policy,” which covers our Medical Supplement Dental 1000 or 1500 plans. All employer group plans share the same frequencies and criteria, only the percentages, deductibles, and waiting periods/missing tooth clauses may change.

Our Health Benefits Department will refer providers to our website for general eligibility, claim status, and benefit breakdowns. If the services are not scheduled, callers will be referred to our website to get an overview of benefits. Our Health Benefit Advisors are happy to assist with questions about scheduled services, denied claims, member’s dental history questions, or problems with submitted claims.
Did You Know?

Providers are under contract to follow COB rules. Therefore, when PEHP is secondary, we will apply our contract and providers are required to take the provider adjustment/write off.

Fee Schedules Available Online

The PEHP for providers secure website allows your office to obtain the current fee schedule. Additionally, providers can see if CDT codes require prior authorization, or if the code is not covered. Sign in using your login credentials. If you can’t remember your login, contact your Provider Relations Specialist.

After successfully signing in at [www.pehp.org](http://www.pehp.org), follow these simple steps to obtain the information you’re seeking:

1. Click on Fee Schedule Lookup.
2. Accept the Terms and Conditions.
3. Date of Service. This will auto populate to the current date. Leave as is.
4. Provider Panel. “Preferred Provider Panel” will autofill. Leave as is.
5. Select Code Criteria. Providers have the ability to look up 10 codes at a time or may search a range of codes. If it’s the full fee schedule you are looking for, select “Enter Range of Codes.” In the first box enter 4 number zero’s, in the second box enter 4 number nine’s.

*Note: With either option, exclude the letter “D”*

6. Choose “Look up Fees.” To upload the results to an excel file, select “Download Results to Spreadsheet.” Your office must have excel on your computer in order for this function to work.
