Don’t put off that test or immunization. Preventive benefits are covered at no cost to you when you see a contracted provider — even before you meet your deductible. This applies to both The STAR Plan and Traditional plan.

Covered Preventive Services for Adults
(Ages 18 and older)

- Preventive physical exam visits for adults, one time per plan year including:
  - Blood pressure screening
  - Basic/comprehensive metabolic panel
  - Complete blood count
  - Urinalysis
- Abdominal aortic aneurysm one-time screening for men aged 65-75 who have ever smoked.
- Alcohol misuse screening and counseling.
- Aspirin use for men ages 45-79 and women ages 55-79, covered under the pharmacy benefit when prescribed by a physician.
- Cholesterol screening for adults of certain ages or at higher risk.
- Colorectal cancer screening for adults ages 50 to 75 using fecal occult blood testing, sigmoidoscopy, or colonoscopy.
- Diet counseling for adults at higher risk for chronic disease including hyperlipidemia, obesity, diabetes, and cardiovascular disease. Intensive counseling can be delivered by primary care clinicians or by referral to other specialists including registered dietitians.
- HIV screening for all adults at higher risk.
- Immunization vaccines for adults—doses, recommended ages, and recommended populations vary:
  - Hepatitis A
  - Hepatitis B
  - Herpes zoster (shingles age 50 and above)
  - Human papillomavirus (HPV)
    - males age 9-21 Gardasil
    - females age 9-26 Gardasil or Cervarix
  - Influenza (flu shot)
  - Measles, mumps, rubella
  - Meningococcal (meningitis)
  - Pneumococcal (pneumonia)
  - Tetanus, diphtheria, pertussis (Td or Tdap)
  - Varicella (chickenpox)
- Depression screening for adults.
- Type 2 diabetes screening for adults with high blood pressure.
- Obesity screening and counseling for all adults by primary care clinicians to promote sustained weight loss for obese adults.
- Sexually transmitted infection (STI) prevention counseling for adults at higher risk.
- Tobacco use screening for all adults and cessation interventions for tobacco users.
- Syphilis screening for all adults at higher risk.

Covered Preventive Services Specifically for Women, Including Pregnant Women

- Preventive gynecological exam, two per plan year.
- Anemia screening on a routine basis for pregnant women.
- Bacteriuria urinary tract or other infection screening for pregnant women.
- BRCA counseling about genetic testing for women at higher risk.
- BRCA testing for women at higher risk, requires preauthorization from PEHP.
- Breast cancer mammography screenings one time per plan year for women over 40.
- Breast cancer chemoprevention counseling for women at higher risk.
- Breast cancer medications for women at higher risk. Tamoxifen or Raloxifene.
- Breastfeeding comprehensive support and counseling from trained providers, as well as access to breastfeeding supplies, for pregnant and nursing women. Coverage allows for either a manual or electric breast pump within 12 months after delivery. Hospital grade breast pumps when medically necessary and preauthorized by PEHP are also included.
- Cervical cancer screening (pap smear) for women ages 21-65.

  » Fluoride chemoprevention supplements for children without fluoride in their water source.
  » Gonorrhea preventive medication for the eyes of all newborns.
  » Hearing screening for all newborns, birth to 90 days old.
  » Height, weight, and body mass index measurements for children.
  » Hematocrit or hemoglobin screening for children.
  » Hemoglobinopathies or sickle cell screening for newborns.
  » HIV screening for adolescents at higher risk.
  » Immunization vaccines for children from birth to age 18 — doses, recommended ages, and recommended populations vary:
    » Diphtheria, tetanus, pertussis (DTap);
    » Haemophilus influenzae type b (Hib);
    » Hepatitis A;
    » Hepatitis B;
    » Human papillomavirus (HPV);
    » Males age 9-21 Gardasil;
    » Females age 9-26 Gardasil or Cervarix;
    » Inactivated poliovirus;
    » Influenza (Flu Shot);
    » Measles, mumps, rubella;
    » Meningococcal (meningitis);
    » Pneumococcal pneumonia;
    » Rotavirus;
    » Varicella (chickenpox).
  » Learn more about immunizations and see the latest vaccine schedules at www.cdc.gov/vaccines/.
  » Iron supplements for children ages 6 to 12 months at risk for anemia.
  » Obesity screening and counseling.

* PEHP processes claims based on your provider’s clinical assessment of the office visit. If a preventive item or service is billed separately, cost sharing may apply to the office visit. If the primary reason for your visit is seeking treatment for an illness or condition, cost sharing may apply. Certain screening services, such as a colonoscopy or mammogram, may identify health conditions that require further testing or treatment. If a condition is identified through a preventive screening, any subsequent testing, diagnosis, analysis, or treatment are not considered preventive services and are subject to the appropriate cost sharing.

Additional Preventive Services When Enrolled in The STAR Plan
(doesn’t apply to Jordan School District)
(doesn’t apply to Consumer Plus)

Adults
» Eye exam, routine. One per plan year.
» Glaucoma screening.
» Glucose test.
